The easier tone in the call money market yesterday, where business was done outside the Stock Exchange at 1½ percent, was reflected in a somewhat better demand for prime bankers' acceptances. Raw Silk Again Active

The raw silk market again was active yesterday. Renewed strength was displayed in the Yokohama market, according to cables received by mercharts. This exhibition of activity is partly ascribed to the rise in raw cotton prices. The reports had it that more than 1,300 hales were sold on Saturday, with American buyers centering their attention on medium and lower grades. Prices again stiffened, and now show an appreciable gain over prices obtaining in the market last week. A leading silk merchant expressed the opinion that prices were firmer on all descriptions. The impression that the spot positions will shortly go to a premium over futures is becoming widespread. This belief is substantiated by the present state of the market. More and more nearby futures are being quoted at figures but slightly above spot, and the tendency appears to be toward even narrower margins. Inquiries from manufacturers continued on the increase.

Lull in Leather Market

Although the South American hide markets display continued activity, little improvement is perceptible in the local hide and leather markets.

From all appearances the leather market is suffered a relapse. Inquiries continue numerous but little.

"Although at present Egypt is passing through a period of unrest and depression," Mr. Worthington aid, "she should be closely watched, ther prosperity can be gauged by the practices of manufacturers whose business standards are extremely low." Louis Rubin, managing director of the association, said yesterday. "Let us assume that a contractor has accepted an order from a jobber at a price that will net him a small profit. He often finds a few days later that the jobber has been approached by another contractor, who deem't even figure the cost of making dresse, and who therefore less than the sum originally offered.
